SCI ENGINEERED MATERIALS, INC.
NOTES TO FINANCIAL STATEMENTS

Note 1. Business Organization and Purpose

SCI Engineered Materials, Inc. (“SCI”, or the “Company”), formerly Superconductive Components, Inc., an Ohio corporation, was incorporated in 1987. The Company is a global supplier and manufacturer of advanced materials for Physical Vapor Deposition Thin Film Applications. Through partnerships with end users and Original Equipment Manufacturers the Company develops innovative customized solutions enabling commercial success.

Note 2. Summary of Significant Accounting Policies

The accompanying unaudited financial statements have been prepared in accordance with U. S. generally accepted accounting principles for interim financial information and with instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U. S. generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments considered necessary for fair presentation of the results of operations for the periods presented have been included. The financial statements should be read in conjunction with the audited financial statements and the notes thereto for the year ended December 31, 2012. Interim results are not necessarily indicative of results for the full year.

The preparation of financial statements in conformity with U. S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 3. Common Stock and Stock Options

Stock Based Compensation - Compensation cost for all stock-based awards is based on the grant date fair value and recognized over the required service (vesting) period. Non cash stock based compensation expense was \$35,435 and \$35,096 for the three months ended March 31, 2013 and 2012, respectively. Unrecognized non cash stock compensation expense was \$480,612 as of March 31, 2013 and will be recognized through 2017. There was no tax benefit recorded for this compensation cost as the expense primarily relates to incentive stock options that do not qualify for a tax deduction until, and only if, a qualifying disposition occurs.

During the three months ended March 31, 2013 and 2012, the four non-employee board members each received compensation of 1,500 shares of common stock of the Company. The stock had an aggregate value of \$10,140 and \$8,040 for the three months ended March 31, 2013 and 2012, respectively, and was recorded as non cash stock compensation expense in the financial statements.

**SCI ENGINEERED MATERIALS, INC.
NOTES TO FINANCIAL STATEMENTS**

Note 3. Common Stock and Stock Options (continued)

The cumulative status of options granted and outstanding at March 31, 2013 and December 31, 2012, as well as options which became exercisable in connection with the Stock Option Plans is summarized as follows:

Employee Stock Options

| | <u>Stock Options</u> | <u>Weighted Average Exercise Price</u> |
|--|----------------------|--|
| Outstanding at January 1, 2012 | 736,750 | \$ 4.52 |
| Expired | (144,500) | 1.59 |
| Outstanding at December 31, 2012 | 592,250 | \$ 5.23 |
| Expired | (250) | 1.00 |
| Outstanding at March 31, 2013 | 592,000 | \$ 5.23 |
| Options exercisable at December 31, 2012 | 322,250 | \$ 4.59 |
| Options exercisable at March 31, 2013 | 367,000 | \$ 4.76 |

Non-Employee Director Stock Options

| | <u>Stock Options</u> | <u>Average Exercise Price</u> |
|---|----------------------|-----------------------------------|
| Outstanding at January 1, 2012 | 250,000 | \$ 3.87 |
| Outstanding at December 31, 2012 | 250,000 | \$ 3.87 |
| Expired | (30,000) | 1.00 |
| Outstanding at March 31, 2013 | 220,000 | \$ 4.26 |
| Shares exercisable at December 31, 2012 | 250,000 | \$ 3.87 |
| Shares exercisable at March 31, 2013 | 220,000 | \$ 4.26 |

Exercise prices for options ranged from \$2.40 to \$6.00 at March 31, 2013. The weighted average option price for all options outstanding was \$4.58 with a weighted average remaining contractual life of 3.2 years.

Note 4. Preferred Stock

The Board of Directors voted not to authorize the payment of a cash dividend on convertible preferred stock, Series B, to shareholders of record as of December 31, 2012. Dividends on the Series B preferred stock accrue at 10% annually on the outstanding shares. Accrued dividends on the Series B preferred stock were \$6,038 for the three months ended March 31, 2013 and 2012. The Company had accrued dividends on Series B preferred stock of \$175,102 and \$150,950 at March 31, 2013 and 2012, respectively. These amounts are included in Convertible preferred stock, Series B on the balance sheet at March 31, 2013 and 2012.

SCI ENGINEERED MATERIALS, INC.
NOTES TO FINANCIAL STATEMENTS

Note 5. Inventories

Inventories consist of the following:

| | <u>March 31,</u> <u>2013</u> (unaudited) | <u>December 31,</u> <u>2012</u> |
|-------------------|--|------------------------------------|
| Raw materials | \$ 262,892 | \$ 346,613 |
| Work-in-process | 367,433 | 408,491 |
| Finished goods | 156,812 | 159,971 |
| Inventory reserve | (105,437) | (100,000) |
| | <u>\$ 681,700</u> | <u>\$ 815,075</u> |

Note 6. Earnings Per Share

Basic income (loss) per share is calculated as income available to (loss applicable to) common stockholders divided by the weighted average of common shares outstanding. Diluted earnings per share is calculated as diluted income available to common stockholders divided by the diluted weighted average number of common shares. Diluted weighted average number of common shares gives effect to all dilutive potential common shares outstanding during the period using the treasury stock method and convertible preferred stock using the if-converted method. Diluted earnings per share exclude all diluted potential shares if their effect is anti-dilutive. For the three months ended March 31, 2013 and 2012 all convertible preferred stock and common stock options listed in Note 3 were excluded from diluted earnings per share due to being out-of-the-money or anti-dilutive. The following is provided to reconcile the earnings per share calculations:

| | Three months ended March 31, | |
|--|------------------------------|---------------------|
| | 2013 | 2012 |
| Loss applicable to common shares | <u>\$ (267,594)</u> | <u>\$ (195,801)</u> |
| Weighted average common shares outstanding – basic | 3,829,898 | 3,805,931 |
| Effect of dilutions | - | - |
| Weighted average shares outstanding – diluted | <u>3,829,898</u> | <u>3,805,931</u> |

SCI ENGINEERED MATERIALS, INC.
NOTES TO FINANCIAL STATEMENTS

Note 7. Notes Payable

On October 16, 2012, the Company issued a Promissory Note (the "Note") in the amount of \$213,000 to The Huntington National Bank, as Lender, with a maturity date of February 28, 2014. This Note replaced an existing promissory note to the Huntington National Bank which had a balance of \$213,000 and an original maturity date of December 31, 2012.

The Note is collateralized by the Company's inventories, equipment and accounts receivable. Among other items, the Note provides for the following:

- Interest subject to change from time to time based on changes in LIBOR. The interest rate applied to the unpaid principal balance is at a rate of 4.0 percentage points over LIBOR. Under no circumstance will the interest rate be less than 5.00% per annum or more than the maximum rate allowed by applicable law.
- Interest only payments through December 31, 2012, with a \$25,000 principal payment due December 31, 2012 and another \$25,000 due January 31, 2013. Monthly payments of approximately \$6,000, including interest, beginning in January 2013 with remaining principal due at maturity in February 2014.

As of March 31, 2013 there was an outstanding balance of \$148,110 on this Note. The Note requires the Company to comply with various restrictive covenants, including a tangible net worth covenant. On May 10, 2013, the Company entered into a modification to the Note with Huntington, whereby Huntington waived the requirement to comply with this covenant for the period ending June 30, 2013. The Company will be required and expects to comply with this covenant beginning September 30, 2013 and through the maturity of the Note in February 2014.

The Company's revolving line of credit arrangement with its senior lender expired on April 13, 2012. There was no balance outstanding under this arrangement at maturity.

During 2010, the Company applied and was approved for a 166 Direct Loan to borrow up to \$744,250 with the Ohio Department of Development (ODOD). This loan was finalized in February 2011. The term of the loan is 84 months at a fixed interest rate of 3%. There is also a 0.25% annual servicing fee charged monthly on the outstanding principal balance. Payments of approximately \$10,500, including interest, are payable monthly through November 2018. The loan is collateralized by the related project equipment. As of March 31, 2013 there was an outstanding balance of \$646,592 on this loan.

During 2010, the Company also applied and was approved for a 166 Direct Loan through the Advanced Energy Program with the Ohio Air Quality Development Authority (OAQDA) to borrow up to approximately \$1.4 million (this maximum commitment by the OAQDA was subsequently reduced to \$368,906 on March 20, 2012). The interest rate was 3% at December 31, 2011 and increased to 10% effective with the first amendment dated March 20, 2012. A second amendment dated June 12, 2012 returned the interest rate to 3% effective April 10, 2012. There is also an annual servicing fee of \$1,600 charged quarterly. The loan is being amortized over 84 months through March 2018. Payments were interest only through March 2012. Thereafter, payments of approximately \$17,300, including interest and servicing fee, are payable quarterly. The loan is collateralized by the related project equipment. As of March 31, 2013 there was an outstanding balance of \$311,923 on this loan.

SCI ENGINEERED MATERIALS, INC.
NOTES TO FINANCIAL STATEMENTS

Note 7. Notes Payable (continued)

An Intercreditor Agreement exists as part of the above mentioned loans with agencies of the State of Ohio. The OAQDA and ODOD agree to shared lien and security interest through mutual covenants. These covenants include, but are not limited to, the creation of an agreed upon number of jobs, filing of quarterly and annual reports and various financial covenants. The Company expects to maintain compliance with all covenants through March 31, 2014.

During 2006, the Company was approved for a 166 Direct Loan from the Ohio Department of Development in the amount of \$400,000. These funds were received in July of 2008 and were used for the purchase of production equipment and to reduce the Company's capital lease obligations on certain equipment. The term of the loan is 84 months at a fixed interest rate of 3%. There is also a 0.25% annual servicing fee to be charged monthly on the outstanding principal balance. The Company is making monthly servicing fee, interest and principal payments of approximately \$6,100. The loan principal balance will be fully amortized at the end of the term in August 2015. The loan is collateralized by the related project equipment. As of March 31, 2013 the loan had a balance of \$169,805. This loan is also subject to certain covenants, including job creation and retention. On March 5, 2013, the Company signed a First Amendment to the Loan Agreement, which changed the number of jobs to be created. The Company expects to maintain compliance with all covenants through March 31, 2014.

Note 8. Income Taxes

Income tax expense (benefit) consisted of the following for the three months ended March 31:

| | 2013 | 2012 |
|--------------------|--------------|-------------------|
| Federal – deferred | \$ - | \$ - |
| State and local | 38 | (5,185) |
| | <u>\$ 38</u> | <u>\$ (5,185)</u> |

The tax benefit for the three months ended March 31, 2012 was due to the reversal of an accrual. Deferred tax assets and liabilities result from temporary differences in the recognition of income and expense for tax and financial reporting purposes. A full valuation allowance has been recorded against the realizability of the net deferred tax assets at March 31, 2013 and December 31, 2012. The Company has net operating loss carryforwards available for federal and state tax purposes of approximately \$4,000,000 which expire in varying amounts through 2031.

SCI ENGINEERED MATERIALS, INC.
NOTES TO FINANCIAL STATEMENTS

Note 9. Liquidity

Management has forecasted the Company's revenues and related costs as well as its investing plans and financing needs to determine its liquidity to meet cash flow requirements and believes it will have sufficient liquidity at least through March 31, 2014. This forecast was based on current cash levels and debt obligations, and management's best estimates of revenues primarily from existing customers and gave consideration to the continued and possible increased levels of uncertainty in demand in the industry in which the Company operates. The Company's ability to maintain current operations is dependent upon its ability to achieve these forecasted results, which management believes will occur.

The Company does not currently have any available sources of additional external funding. The Company's revolving line of credit arrangement with its senior lender expired on April 13, 2012. There was no balance outstanding under this arrangement at maturity. The Company did not have the need to draw on the revolving line of credit since the original commitment date of January 13, 2009. The Company does not anticipate the need for a similar credit facility in 2013; although management may pursue revolving credit arrangements as working capital requirements increase. The Company's ability to obtain a new line of credit, if deemed necessary, is not certain.

Should projected sales levels fall below the minimum levels expected to be achievable by management, additional cost reduction actions could be instituted which might facilitate the continued operation of the Company but the achievement of such reductions and the timing of their impact are not readily predictable.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the Financial Statements and Notes contained herein and with those in our Form 10-K for the year ended December 31, 2012.

Except for the historical information contained herein, the matters discussed in this Quarterly Report on Form 10-Q include certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which are intended to be covered by the safe harbors created thereby. Those statements include, but may not be limited to, all statements regarding our intent, belief, and expectations, such as statements concerning our future profitability and operating and growth strategy. Words such as “believe,” “anticipate,” “expect,” “will,” “may,” “should,” “intend,” “plan,” “estimate,” “predict,” “potential,” “continue,” “likely” and similar expressions are intended to identify forward-looking statements. Investors are cautioned that all forward-looking statements contained in this Quarterly Report on Form 10-Q and in other statements we make involve risks and uncertainties including, without limitation, the factors set forth under the caption “Risk Factors” included in our Annual Report on Form 10-K for the year ended December 31, 2012, and other factors detailed from time to time in our other filings with the Securities and Exchange Commission. One or more of these factors have affected, and in the future could affect our business and financial condition and could cause actual results to differ materially from plans and projections. Although we believe the assumptions underlying the forward-looking statements contained herein are reasonable, there can be no assurance that any of the forward-looking statements included in this Quarterly Report on Form 10-Q will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by us or any other person that our objectives and plans will be achieved.

Any forward-looking statement speaks only as of the date on which such statement is made, and we undertake no obligation to update any forward-looking statement or statements to reflect events or circumstances after the date on which such statements are made or reflect the occurrence of unanticipated events, unless necessary to prevent such statements from becoming misleading. New factors emerge from time to time and it is not possible for us to predict all factors, nor can it assess the impact of each such factor on the business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Overview

SCI Engineered Materials, Inc. (“SCI”, “we” or the “Company”), formerly Superconductive Components, Inc., an Ohio corporation, was incorporated in 1987. The Company is a global supplier and manufacturer of advanced materials for Physical Vapor Deposition Thin Film Applications. Through partnerships with end users and Original Equipment Manufacturers the Company develops innovative customized solutions enabling commercial success. Photonics currently represents the largest market for our targets. We have been gaining traction in the solar industry and we expect adoption of our products by current and new customers. Thin Film Battery is a developing market where manufacturers of batteries use our products to produce very small power supplies with small quantities of stored energy.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Executive Summary

We invested approximately \$94,000 in new equipment during the first three months of 2013 and approximately \$590,000 during 2012. We continued to develop transparent conductive oxide systems for the solar and glass industries and added domestic and international customers for these products. Despite short term uncertainties, the solar industry is projected to have strong growth for the next few decades. In addition, the Thin Film Solar (TFS) market, which we serve, is expected to gain market share during that period. Given current market opportunities, we continue to invest in research and development, marketing, and sales. These investments have resulted in ongoing production orders with periodic releases and intermittent repeat orders from several customers, as well as trial and qualification orders that were shipped to customers in the solar industry during the last two years. We continue to work closely with all of our customers and are positioned to meet their near term product requirements.

Although we expect investment in equipment to be less in 2013, we continue to invest in developing new products for all current markets including our ongoing efforts in transparent conductive oxide systems. These efforts include accelerating time to market for those products and involve research and development expense beyond the scope of specific government grants and awards.

For the three months ended March 31, 2013, we had total revenue of \$1,433,602. This was a decrease of \$449,430, or 23.9%, compared to the three months ended March 31, 2012. Product revenue decreased \$444,672, or 24.5% for the three months ended March 31, 2013 from the same period in 2012. Product revenue decreased primarily due to a periodic inventory adjustment by one of our large customers. This customer represented 12% of our revenue in the first quarter of 2013 compared to 56% during the first quarter of 2012. We resumed shipping product to this customer late in the first quarter of 2013. In addition, during August 2012, another customer announced it was reorganizing its manufacturing operations which impacted our shipments. We had no shipments to this customer during the first three months of 2013. This customer represented approximately 10% of our revenue during the first three months of 2012. During April 2013 we were notified by this customer that it expected to restart operations during the second quarter of 2013. Revenue for the second quarter of 2013 is expected to be greater than the first quarter of 2013 due to the expected resumption of shipments to these customers.

Gross profit was \$173,599 for the three months ended March 31, 2013 compared to \$315,145 for the same three months in 2012. This was a decrease of \$141,546, or 44.9%. The decrease in gross profit can be attributed to fewer shipments to the customers mentioned above. Gross profit as a percentage of revenue was 12.1% for the first three months of 2013 compared to 16.7% for the same period in 2012. This decrease can be attributed to the lower gross profit mentioned above and product mix.

Operating expenses were \$464,654 and \$490,403 for the three months ended March 31, 2013 and 2012, respectively. This was a decrease of \$25,749, or 5.3%. We continue to invest in developing new products for the solar industry including transparent conductive oxide systems. These efforts include accelerating time to market for those products and involve research & development expense beyond the scope of specific government grants and awards.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

For the three months ended March 31, 2013, we had a net loss after income taxes of \$261,556 compared to a net loss of \$189,763 for the three months ended March 31, 2012. We had loss applicable to common shares of \$267,594 for the three months ended March 31, 2013 compared to \$195,801 for the same period in 2012.

RESULTS OF OPERATIONS

Three months ended March 31, 2013 (unaudited) compared to three months ended March 31, 2012 (unaudited):

Revenue

For the three months ended March 31, 2013, we had total revenue of \$1,433,602 compared to \$1,883,032 for the three months ended March 31, 2012. This was a decrease of \$449,430, or 23.9%, compared to the three months ended March 31, 2012. Product revenue decreased \$444,672, or 24.5% for the three months ended March 31, 2013 from the same period in 2012. Product revenue decreased due to a periodic inventory adjustment by one of our large customers. This customer represented 12% of our revenue in the first quarter of 2013 compared to 56% during the first quarter of 2012. We resumed shipping product to this customer late in the first quarter of 2013. In addition, during August 2012, another customer announced it was reorganizing its manufacturing operations which impacted our shipments. We had no shipments to this customer during the first three months of 2013. This customer represented approximately 10% of our revenue during the first three months of 2012. During April 2013 we were notified by this customer that it expected to restart operations during the second quarter of 2013. Revenue for the second quarter of 2013 is expected to be greater than the first quarter of 2013 due to the expected resumption of shipments to the customers referenced above. Revenue for the second quarter of 2013 is expected to be less than revenue for the second quarter of 2012 due to three factors; the reduction in cost of a high priced raw material, less than a full quarter of shipments to the customer resuming operations, and less contract revenue.

Revenue from product sales is recognized upon shipment to customers. Provisions for discounts and rework costs for returns are established when products are shipped based on historical experience. Customer deposits represent cash received in advance of revenue earned.

Revenue from contract research provided for third parties is recognized on the percentage of completion method. Contract research revenue is recognized during the period qualifying expenses are incurred for the research that is performed as set forth under the terms of the grant award agreements.

Gross Profit

Gross profit was \$173,599 for the three months ended March 31, 2013 compared to \$315,145 for the same three months in 2012. This was a decrease of \$141,546, or 44.9%. The decrease in gross profit can be attributed to fewer shipments to the customers mentioned above. Gross profit as a percentage of revenue was 12.1% for the first three months of 2013 compared to 16.7% for the same period in 2012. This decrease can be attributed to the lower gross profit and product mix.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

General and Administrative Expense

General and administrative expense for the three months ended March 31, 2013 increased to \$295,210 from \$280,913 for the three months ended March 31, 2012, or 5.1%. The first quarter of 2013 included higher professional fees of approximately \$11,000, compensation expense of approximately \$4,000 and non-cash stock based compensation of approximately \$2,000 compared to the first quarter of 2012.

Professional Fees

Included in general and administrative expense was \$69,360 and \$58,756 for professional fees for the three months ended March 31, 2013 and 2012, respectively. These continued expenses are related to SEC compliance costs for legal, accounting and stockholder relations fees.

Research and Development Expense

Research and development expense for the three months ended March 31, 2013 was \$64,120 compared to \$96,822 for the same period in 2012, a decrease of 33.8%. This decrease can be related to improved efficiencies throughout our research area. The first quarter of 2012 included higher costs related to developing innovative transparent conductive oxide systems to further align our activities with customer needs. Expense related to this area was lower by approximately \$37,000 in the first quarter of 2013 compared to the same time period in 2012. These research and development endeavors have moved us beyond the scope of our current federal and state grants and awards.

Marketing and Sales Expense

Marketing and Sales expense for the three months ended March 31, 2013 decreased 6.5% to \$105,324 from \$112,668 for the same period in 2012. The decrease was primarily related to lower compensation expense of approximately \$9,000.

Stock Compensation Expense

Included in operating expenses were non cash stock based compensation costs of \$35,435 and \$34,358 for the three months ended March 31, 2013 and 2012, respectively. Compensation cost for all stock-based awards is based on the grant date fair value and recognized over the required service (vesting) period. Unrecognized non cash stock based compensation expense related to operating expense was \$480,612 as of March 31, 2013 and will be recognized through 2017.

Interest expense

Interest expense was \$20,683 and \$20,111 for the three months ended March 31, 2013 and 2012, respectively. The increase was due to the addition of loan proceeds received from agencies of the State of Ohio and a Promissory Note from our bank.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)*Income Tax Expense/Benefit*

Income tax expense for the three months ended March 31, 2013 was \$38. Income tax benefit for the three months ended March 31, 2012 was \$5,185. This income tax benefit was due to the reversal of an accrual.

Loss Applicable to Common Stock

Loss applicable to common stock was \$267,594 for the three months ended March 31, 2013 compared to a loss of \$195,801 for the three months ended March 31, 2012.

Common Stock

The following schedule represents our outstanding common stock during the period of 2013 through 2019 assuming all outstanding stock options are exercised during the year of expiration. Based on outstanding shares at March 31, 2013, if each shareholder exercises his or her options, it would increase our common shares by 812,000 to 4,644,898 by December 31, 2019. Assuming all such options are exercised in the year of expiration, the effect on shares outstanding is illustrated as follows:

| | Options due to expire | Potential shares outstanding | Weighted average exercise price |
|------|-----------------------|------------------------------|---------------------------------|
| 2013 | - | 3,832,898 | - |
| 2014 | 180,000 | 4,012,898 | \$4.36 |
| 2015 | 140,000 | 4,152,898 | \$2.97 |
| 2016 | 36,000 | 4,188,898 | \$3.25 |
| 2017 | - | 4,188,898 | - |
| 2018 | 6,000 | 4,194,898 | \$3.10 |
| 2019 | 450,000 | 4,644,898 | \$6.00 |

Liquidity and Capital Resources*Cash*

As of March 31, 2013 cash on hand was \$413,031. Cash on-hand was \$630,819 at December 31, 2012. We believe, based on forecasted sales and expenses that cash flow from operations will be adequate to sustain operations at least through March 31, 2014.

Working Capital

At March 31, 2013 working capital was \$512,907 compared to \$802,187 at December 31, 2012, a decrease of \$289,280 or 36.1%. As discussed below, cash decreased approximately \$218,000. Accounts receivable increased approximately \$58,000. Inventories decreased approximately \$133,000 due to shipments during the first quarter of 2013. Customer deposits decreased approximately \$87,000 due to shipments during the first quarter of 2013. Current capital lease obligations decreased by approximately \$14,000 while current notes payable increased by approximately \$65,000 due to the Huntington National Bank promissory note maturing on February 28, 2014.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Cash from Operations

Net cash used by operating activities was approximately \$106,000 for the three months ended March 31, 2013. Net cash provided by operating activities was approximately \$55,000 for the three months ended March 31, 2012. In addition to the changes in various current assets and liabilities mentioned above, non cash expenses for depreciation, accretion and amortization increased to approximately \$151,000 during the first quarter of 2013 from \$144,000 during 2012, an increase of 4.7%. This increase was related to the purchase of additional machinery and equipment. Included in expenses were non cash stock based compensation costs of approximately \$35,000 for the three months ended March 31, 2013 and 2012. There was a gain on sale of equipment during the first quarter of 2013 of \$50,000.

Cash from Investing Activities

Cash of approximately \$43,000 was provided by investing activities during the three months ended March 31, 2013. Cash of approximately \$37,000 was used for investing activities during the three months ended March 31, 2011. The amounts invested were used to purchase safety equipment and machinery for increased production capacity and new product lines. Proceeds on sale of equipment were \$50,000 for the three months ended March 31, 2013.

Cash from Financing Activities

Cash of approximately \$154,000 and \$127,000 was used in financing activities for principal payments to third parties for capital lease obligations and notes payable during the three months ended March 31, 2013 and 2012, respectively. We incurred a new capital lease obligation of approximately \$86,000 for new production equipment during the first quarter of 2013.

Debt Outstanding

Total debt outstanding decreased during the first three months of 2013 from approximately \$1,758,000 to approximately \$1,690,000, or 3.9%. We paid cash of approximately \$154,000 towards principal amounts of capital lease obligations and notes payable during the first quarter of 2013.

Liquidity

We have forecasted revenues and related costs as well as investing plans and financing needs to determine liquidity to meet cash flow requirements and believe we will have sufficient liquidity at least through March 31, 2014. This forecast was based on current cash levels and debt obligations, and our best estimates of revenues primarily from existing customers and gave consideration to the continued and possible increased levels of uncertainty in demand in the industry in which we operate. Our ability to maintain current operations is dependent upon its ability to achieve these forecasted results, which we believe will occur.

We do not currently have any available sources of additional external funding. Our revolving line of credit arrangement with our senior lender expired on April 13, 2012. There was no balance outstanding under this arrangement at maturity. We did not have the need to draw on the revolving line of credit since the original commitment date of January 13, 2009. We do not anticipate the need for a similar credit facility in 2013; although we may pursue revolving credit

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

arrangements as working capital requirements increase. Our ability to obtain a new line of credit, if deemed necessary, is not certain.

Should projected sales levels fall below the minimum levels expected to be achievable, additional cost reduction actions could be instituted, which might facilitate the continued operation of the Company but the achievement of such reductions and the timing of their impact are not readily predictable.

Government Grants and Contracts

During the fourth quarter of 2009 we were notified we had been awarded a grant in the amount of \$775,400 by the Ohio Department of Development's Third Frontier Photovoltaic Program (TFPVP) to commercialize advanced technology for high power density rotatable ceramic sputtering targets. These targets are used in the manufacture of thin film photovoltaics. This technology will enable manufacturers to operate rotatable sputtering targets at higher power densities than current technology. The approval of the grant was received during January 2010 and the work on the contract commenced in the first quarter of 2010. Revenue totaled \$63,732 during the first three months of 2013 compared to \$61,659 during the first three months of 2012. Total expenditures for the project through March 31, 2013 were \$748,962. The work on the contract is expected to conclude during the second quarter of 2013.

We anticipate that contract research revenue will be less in 2013 due to the TFPVP program drawing to a close during the second quarter of 2013. We do not rely on contract revenue as a main part of our business and do not believe that this reduction will have an adverse effect on our business.

Off Balance Sheet Arrangements

We have no off balance sheet arrangements including special purpose entities.

Critical Accounting Policies

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States requires management to make judgments, assumptions and estimates that affect the amounts reported in the Financial Statements and accompanying notes. Note 2 to the Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2012 describes the significant accounting policies and methods used in the preparation of the Financial Statements. Estimates are used for, but not limited to, accounting for the allowance for doubtful accounts, inventory allowances, property and equipment depreciable lives, patents and licenses useful lives, revenue recognition, tax valuation, stock based compensation and assessing changes in which impairment of certain long-lived assets may occur. Actual results could differ from these estimates. The following critical accounting policies are impacted significantly by judgments, assumptions and estimates used in the preparation of the Financial Statements. The allowance for doubtful accounts is based on our assessment of the collectability of specific customer accounts and the aging of the accounts receivable. If there is a deterioration of a major customer's credit worthiness or actual defaults are higher than our historical experience, our estimates of the recoverability of amounts due us could be adversely affected. Inventory purchases and commitments are based upon future demand forecasts. If there is a sudden and significant decrease in demand for our products or there is a higher risk of inventory obsolescence because of rapidly changing technology and customer requirements, we may be required to increase our inventory allowances and

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

our gross margin could be adversely affected. Depreciable and useful lives estimated for property and equipment, licenses and patents are based on initial expectations of the period of time these assets and intangibles will benefit us. Changes in circumstances related to a change in our business, change in technology or other factors could result in these assets becoming impaired, which could adversely affect the value of these assets.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can only provide reasonable assurance of achieving the desired control objectives and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Due to a segregation of duties material weakness described below, and based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that as of March 31, 2013, the Company's disclosure controls and procedures were not effective, at the reasonable assurance level, in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act and in ensuring that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including the Chief Executive Officer and Chief Accounting Officer, as appropriate to allow timely discussions regarding required disclosure. Until we are able to hire additional employees, we will continue to report to the Audit Committee and the Board of Directors at least monthly (and more often as necessary). We believe this will continue to mitigate this weakness. This reporting includes balance sheets, statements of operations, statements of cash flows, and other detail supporting these statements. Accordingly, we believe that the financial statements included in this report fairly present, in all material respects, our financial condition, results of operation, changes in shareholder's equity and cash flows for all periods presented.

Inherent Limitations over Internal Controls

Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Our internal control over financial reporting includes those policies and procedures that: (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures are being made only in accordance with authorizations of management and directors; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of assets that could have a material effect on the financial statements.

Item 4. Controls and Procedures (continued)

Management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our internal controls will prevent or detect all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of internal controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. Also, any evaluation of the effectiveness of controls in future periods is subject to the risk that those internal controls may become inadequate because of changes in business conditions or that the degree of compliance with the policies or procedures may deteriorate.

Management previously disclosed a material weakness in internal control over financial reporting in its annual report on Form 10-K, filed on March 19, 2013 for the year ended December 31, 2012, relating to insufficient segregation of duties consistent with control objectives. Management is aware of the risks associated with the lack of segregation of duties due to the small number of employees currently working with general administrative and financial matters. Due to our size and nature, segregation of all conflicting duties may not always be possible and may not be economically feasible. However, to the extent possible, the initiation of transactions, the custody of assets and the recording of transactions shall be performed by separate individuals. In order to remediate this weakness, we will need to hire additional employees. Although we will periodically reevaluate this situation, at this point we consider that the risks associated with such lack of segregation of duties and the potential benefits of adding employees to segregate such duties are not cost justified. Until we are able to hire additional employees, we will continue to report to the Audit Committee and the Board of Directors at least monthly (and more often as necessary). We believe this will continue to mitigate this weakness. This reporting includes balance sheets, statements of operations, statements of cash flows, and other detail supporting these statements.

Changes in Internal Controls over Financial Reporting

There were no changes in our internal controls over financial reporting for the three months ended March 31, 2013 that materially affected or were reasonably likely to materially affect our disclosure controls and procedures. Additionally, there were no changes in our internal controls that could materially affect our disclosure controls and procedures subsequent to the date of their evaluation.

Part II. Other Information

Item 6. Exhibits

- 3.1 Certificate of Second Amended and Restated Articles of Incorporation of Superconductive Components, Inc. (Incorporated by reference to Exhibit 3(a) to the Company's initial Form 10-SB, filed on September 28, 2000)
- 3.2 Restated Code of Regulations of Superconductive Components, Inc. (Incorporated by reference to Exhibit 3(b) to the Company's initial Form 10-SB, filed on September 28, 2000)
- 3.3 Amendment to Articles of Incorporation recording the change of the corporate name to SCI Engineered Materials, Inc. (Incorporated by reference to Exhibit 3.1 to the Company's Quarterly Report on Form 10-QSB filed November 7, 2007).
- 4.1 SCI Engineered Materials, Inc. 2011 Stock Incentive Plan (Incorporated by reference to the Company's Definitive Proxy Statement for the 2011 Annual Meeting of Shareholders held on June 10, 2011, filed April 28, 2011).
- 4.2 Superconductive Components, Inc. 2006 Stock Incentive Plan (Incorporated by reference to Appendix A to the Company's Definitive Proxy Statement for the 2006 Annual Meeting of Shareholders held on June 9, 2006, filed May 1, 2006).
- 4.3 Description of the Material Terms of the Stock Option Grant and Cash Bonus Plan for Executive Officers (Incorporated by reference to the Company's Current Report on Form 8-K, dated June 19, 2006, filed June 23, 2006)
- 4.4 Form of Incentive Stock Option Agreement under the Superconductive Components, Inc. 2006 Stock Incentive Plan (Incorporated by reference to Exhibit 10.1 to the Company's Current Report on Form 8-K dated June 19, 2006, filed June 23, 2006).
- 4.5 Form of Non-Statutory Stock Option Agreement under the Superconductive Components, Inc. 2006 Stock Incentive Plan (Incorporated by reference to Exhibit 10.2 to the Company's Current Report on Form 8-K dated June 19, 2006, filed June 23, 2006).
- 4.6 Description of the Material Terms of the Stock Option Grant for Executive Officers and Board of Directors (Incorporated by reference to the Company's Current Report on Form 8-K dated January 2, 2009, filed January 6, 2009).
- 4.7 Fourth Amended and Restated 1995 Stock Option Plan (Incorporated by reference to Exhibit 4(a) to the Company's Registration Statement on Form S-8 (Registration No. 333-97583), filed on August 2, 2002)
- 4.8 Form of Non-Statutory Stock Option Agreement Under the Superconductive Components, Inc. Fourth Amended and Restated 1995 Stock Option Plan (Incorporated by reference to Exhibit 10.1 to the Company's Current Report on Form 8-K, filed on December 22, 2005)

Item 6. Exhibits (continued)

- 10.1 Description of amendment to the Loan Agreement between the Company and The Ohio Air Quality Development Authority (Incorporated by reference to the Company's Current Report on Form 8-K, filed March 26, 2012).
- 10.2 Description of amendment to the Loan Agreement between the Company and the Ohio Department of Development (Incorporated by reference to the Company's Current Report on Form 8-K, filed April 9, 2012).
- 10.3 Description of amendment to the Loan Agreement between the Company and The Ohio Air Quality Development Authority (Incorporated by reference to the Company's Current Report on Form 8-K, filed July 10, 2012).
- 10.4 Description of amendment to the Loan Agreement between the Company and The Ohio Air Quality Development Authority (Incorporated by reference to the Company's Current Report on Form 8-K, filed October 19, 2012).
- 10.5 Description of Business Loan Agreement between the Company and The Huntington National Bank dated as of October 15, 2012 (Incorporated by reference to the Company's Current Report on Form 8-K, filed October 19, 2012).
- 10.6 Description of amendment to the Loan Agreement between the Company and the Ohio Development Services Agency, formerly known as the Ohio Department of Development (Incorporated by reference to the Company's Current Report on Form 8-K, dated March 19, 2013).

SCI ENGINEERED MATERIALS, INC.

/s/ Daniel Rooney

Daniel Rooney, Chairman of the Board of Directors,
President and Chief Executive Officer
(Principal Executive Officer)

/s/ Gerald S. Blaskie

Gerald S. Blaskie, Vice President and Chief Financial Officer
(Principal Financial Officer and Principal Accounting Officer)

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER
PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Daniel Rooney, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of SCI Engineered Materials, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
